CURRICULUM RESOURCE MANUAL

1980

Douglas J. Mortimore

May, 1980

A Message to Business Educators

The Business Education Curriculum Resource Manual is published by the Curriculum Branch, Alberta Education and will continue to be published periodically as a service document for Alberta business educators. This manual will also be updated through the Business Education Newsletter.

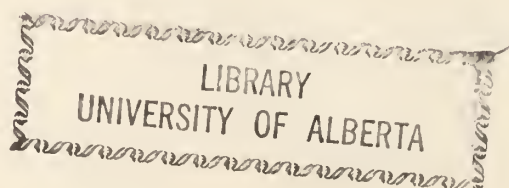

It is intended as a convenient resource to enable business educators to acquire relevant curriculum materials. It is by no means a definitive list; but it can become an excellent resource with your cooperation.

Some of the publication dates are missing and could not be located in Books in Print. If you can provide the missing information it would be greatly appreciated. The last few pages of this guide are included to enable you to provide the name(s) of any resource(s) you feel are pertinent. Please take the opportunity to assist in upgrading the Business Education Curriculum Resource Manual.

Special thanks go to Wendy Hagar and Barbara Watson of the Calgary Regional Office for their many hours of typewriting.

This manual was originally prepared on a Commodore PET Microcomputer equipped with Word Processing III software and a NEC Spinwriter printer.

Douglas J. Mortimore
Business Education Consultant
